**Current Energy Announces Onesimo Hernandez Elementary in Dallas  
as Winner of the “Educate Dallas Earth Day 2008” Poster Contest**

**Dallas, April 22, 2008** – Current Energy, creator of the world’s first energy efficiency store™, has announced Onesimo Hernandez Elementary School in Dallas as the winner of the company’s first annual “Educate Dallas Earth Day 2008” poster contest. Current Energy hosted an awards ceremony and “green” pep rally today at an all-school assembly for Onesimo Hernandez to congratulate the students and celebrate Earth Day.

In honor of Earth Day, Current Energy created the “Educate Dallas Earth Day 2008” poster contest to educate Dallas’ youth on the importance of energy efficiency and earth-friendly initiatives. The company invited six DISD elementary schools in close proximity to the Current Energy store on Knox Street in Dallas to each create a poster on what Earth Day means to them.

Current Energy also presented Onesimo Hernandez Elementary School, part of the Dallas Independent School District (DISD), with a \$1,000 check for environmental enhancements or educational materials. Dallas Mayor Tom Leppert, who judged the contest, along with Current Energy principal partner Joseph Harberg, gave an Earth Day “charge” to the Onesimo Hernandez students during the awards ceremony.

“Current Energy is committed to educating community members on the importance of making smart, energy decisions and taking responsible actions to protect our earth – starting, most importantly, with the future generation – our youth,” said Joseph Harberg, a principal partner of Current Energy. “We created “Educate Dallas Earth Day 2008” to help teach students that small actions – such as recycling trash or planting a tree in the backyard – can lead to big changes. Onesimo Hernandez’ students truly captured the meaning of Earth Day with the artwork on their poster, and we congratulate the school on its efforts to educate students in Dallas on Earth Day.”

Participating DISD elementary schools included Ben Milam, James Bonham, Lakewood Elementary, Onesimo Hernandez, Robert E. Lee and William B. Travis. Current Energy also donated \$500 to each participating school for environmental enhancements. All “Educate Dallas Earth Day 2008” posters are available for viewing at the Current Energy store at 3103 Knox Street in Dallas through the first weekend in May.

**About Current Energy**

Current Energy, headquartered in Dallas, is a one-stop comprehensive resource for energy efficiency solutions. Current Energy helps residential and commercial customers manage energy consumption, save on energy bills and contribute to the sustainability of the planet. Since then, the company has grown to include two divisions – commercial and residential, which operates the world’s first energy efficiency store™. Current Energy was recognized by the U.S. Department of Energy in the fall of 2007 with an Energy Innovators Award. For more information, visit [www.currentenergy.com](http://www.currentenergy.com).
